Following the Special Business Committee Meeting on September 22, 2021, the Business Committee approved a motion to distribute ARPA (American Rescue Plan Act) funds in the amount of \$1,400 per citizen enrolled as of September 22, 2021. The primary intention is to protect and serve our tribal citizens by providing direct assistance to combat the negative financial impact of this pandemic. There have been no further details on guidelines from the US Treasury, therefore, further allocation of funding past this payment has not yet been made. The Tribe has taken steps to implement a clear process to apply for distribution. Applications will be posted and mailed soon. Please take this time to ensure your address and information is up to date with the form below.
