

## Community Skills Survey – Cultural Preservation

The Cultural Preservation Department is gathering information from citizens who have traditional or cultural skills they are willing to share.

We are especially interested in skills such as flint knapping, beading, ribbon skirt making, bow making, pottery, and related arts.

If you have knowledge or experience in any of these areas, please take a moment to complete our short form. Your participation will help us preserve, strengthen, and pass on our cultural traditions to future generations.

Thank you for supporting cultural preservation.
